

The diagram features three octagonal nodes at the top: a green one on the left labeled 'Cyber', a red one in the center labeled 'Physical', and an orange one on the right labeled 'Systems'. Below these is a rectangular box labeled 'Multi-Paradigm Modeling'. Two thick, dark blue curved arrows originate from the bottom of the 'Cyber' and 'Systems' octagons and point towards the 'Multi-Paradigm Modeling' box. The 'Physical' octagon is positioned directly above the box, acting as a central hub.
